

On The Road To Emmaus

As I am walking on the road of life, I have been overwhelmed by God's saving grace. God's saving grace has provided the light that gives me understanding. This saving grace of God has made my conscience more tender toward Him and other people that surround me. God in His saving grace has made me willing to conform to His will and to live in harmony with His desires. This saving grace of God permeates every aspect of my life as a believer.

This saving grace of God never dries up, evaporates or leaves us. The the head waters of this river of saving grace which we as the children of God experience is the Spirit of God.

Oh may we praise Him for His grace and favor that flows to us from His Holy Spirit. Oh, may we be thankful for the saving grace that He has shown us.

In this new year are you praising and thanking God in prayer for His saving grace?
